Thunder Bay
International Film Festival

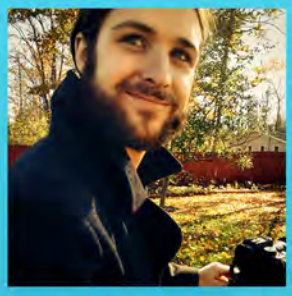
This workshop is a part of the Thunder Bay International Film Festival, bringing the world of cinema to northeast Michigan every January. From January 21-25, 2015, northeast Michigan will be treated to some of the most impressive ocean and Great Lakes-inspired films from around the world. For more information or to buy tickets to festival screenings, please call 989-356-8805, ext. 38 or visit thunderbay.noaa.gov.

FRIENDS
OF THUNDER BAY NATIONAL MARINE SANCTUARY

The Thunder Bay International Film Festival is brought to you by the Friends of Thunder Bay National Marine Sanctuary, protecting the Great Lakes and their rich history for this and future generations. Learn more about the Friends at thunderbayfriends.org.

COURSE DESCRIPTION:

In this introductory filmmaking workshop, you'll learn the essentials of making a film, from conception to completion. Workshop instructor Joseph Rybarczyk will guide you through basic cinematic theories & concepts, with examples from well-known, and lesser-known films, paving the way for the second half of the workshop, where you'll be given the opportunity to work in teams to conceptualize, storyboard, and complete your own short films. These films will be screened in the Sanctuary Theater during the Thunder Bay Film Festival for public viewing. Though this is a one-day workshop, there will be times available during the week prior to the film festival to utilize the editing stations, with the help of the instructor, in order to finish your film. Anyone Highschool age or older is welcome! For any questions or to purchase tickets, call us or visit the Sanctuary Store.



ABOUT:

Joseph Rybarczyk studied Screen Arts & Cultures and Environmental Science at the University of Michigan, as well as Film Direction at Lansing Community College. He has written, directed, and edited many of his own short films. He is passionate about storytelling, and the ability of film & video to facilitate the free expression and sharing of ideas across cultural bounderies. He is very excited & thankful for the TBNMS for the opportunity to teach this workshop.
